

## International Masters Mobility Scholarship (MIEM)

The MIEM program, funded by the IdEx Université Sorbonne Paris Cité (USPC), aims to diversify internationally the Masters' program and facilitate the participation of the most talented foreign students thus creating a pool of excellence of potential future doctoral candidates in line with the established research policy of the College of Doctoral Schools at USPC. Through the MIEM program, USPC has the opportunity and the means to train tomorrow's top level-scientist.

### Eligible Master's programs

10 scholarships will be proposed to students admitted to the second year (M2) of the following Master's program

#### Master's in Earth and planetary sciences & Environment

- Speciality Geophysics, Solid Earth
- Speciality Geochemistry, geobiology, geomaterials and environment
- Speciality Geology and geoenergies
- Speciality Remote Sensing and Space Science, focus on Physical Fundamentals in Remote Sensing
- Speciality Remote Sensing and Space Science, focus on Global Navigation Satellite Systems

#### Master's in Georesources, Geohazards, Geotechnics

- Speciality Telluric natural hazards

### Who can apply?

The MIEM program is restricted to foreign students that have not previously attended a French university. The applicant must be less than 30 years of age on 1 September 2015.

Foreign students completing a French baccalaureate exam are not eligible.

Students with dual nationalities, one of them being French, are not eligible.

### How to apply

- 1- Download and complete the « **MIEM USPC Scholarship** » **application form**.
- 2 – The completed application form and all documents requested must be gathered within a single pdf file and e-mailed before **March 31th, 2015** to the Institut de physique du globe de Paris at the following address: **scol-master@ipgp.fr**

The candidate's application will be reviewed by the faculty admissions committee once admission to one of the eligible Master's program has been granted.

Incomplete applications will not be taken into consideration.

### **Decision notifications**

The applicants will be notified via email of the committee's decision.

Successful applicants have 15 days from the date of notification to confirm their acceptance of the MIEM scholarship by replying to the decision notification email received. If the applicant fails to confirm their acceptance, as of 16<sup>th</sup> day following receipt of the decision notification, it will appear on record that the applicant declines the scholarship.

### **Scholarship financial aid and obligations**

MIEM USPC scholarship recipient receives 10,000 euros per year as financial aid. The financial aid is allocated for one year, it is non renewable and cannot be postponed. The scholarship cannot be cumulated with another scholarship.

Recipients of the MIEM USPC scholarship have the following obligations under penalty of suspension of the scholarship:

- Be enrolled in one of the eligible Master's program at IPGP.
- Be present from the start of term (Friday, September 4th 2015).
- Be assiduous and attend all courses
- Undertake the end of program research internship within one of the research department at IPGP.

The scholarship financial aid is transferred to French bank account once the recipient is duly enrolled in one of the eligible Master's program.

The recipient must be duly enrolled before September 15th, 2015. Failure to do so will lead to the scholarship being revoked.

Help can be provided to student fellows for the search for housing.

### **False statements**

In case of false statements in the scholarship application form, IPGP reserves the right to deny or to terminate the scholarship at any time and to engage legal proceedings.
